

**Barlborough Parish Council**

Serving the people of Barlborough

# Sustainable Barlborough

We are supporting Barlborough Parish Council's action plan to help protect our environment. The Parish council have agreed a *Sustainable Barlborough* action plan which focuses on litter, plastic, planting and traffic.

## How are we helping?

**Undertaking regular litters sweeps outside our premises, particularly after weekends and when our rubbish has been collected;**

**Placing litter bins and recycling bins inside and outside our premises to encourage recycling;**

**Providing free water top ups for drinking bottles to reduce the use of single use plastic.**
